Announcing Pre-Kindergarten Visit

One of the most significant experiences in a child's life is his or her first day of school. It is very important for us to do everything possible to make each child's first day, and every day, a positive and successful learning experience.

In order to create optimal learning conditions for your child in the coming year, we invite all children eligible for kindergarten in August to a special Pre-kindergarten Visit designed to acquaint them with our kindergarten program and assess their learning needs. It is our intent that the visit will provide a brief pre-kindergarten experience and, hopefully, alleviate any fears about coming to school. Upon arrival, you and your child will be invited to visit in separate areas within the school. As parents of an incoming kindergarten student, you will have the opportunity to meet with the principal and others who will share information and answer questions. During the course of the visit, kindergarten teachers, guidance counselors, and reading specialists will be observing and working with your child at several stations in the kindergarten classrooms. They will look for developmental growth in the areas of literacy, perception, fine motor skills, and socialization. We do ask that you bring your child promptly at the time listed below.

While we hope that your assigned date and time are convenient, if you need to reschedule, please contact your local elementary school

If your plans have changed and your child will not be attending the Exeter kindergarten program for the 2011-2012 school year, please contact the school.

The Pre-K Parent Survey is enclosed for you to complete. Please bring the completed form with you to the orientation.

You and your child, _____ are invited to School Name on Date at Time. Please enter through the main doors and signs will direct you to the designated rooms. We look forward to seeing you.

Sincerely,

Elementary Principal
