

Schedule Model Cheat Sheet

NOTE: If you haven't done so already, please watch the video posted above this document on the EJHS website.

Use your schedule in **Skyward** to assist you with this process.

How do I know what Model I should follow?

- First, identify your lunch period on your **Skyward** schedule. Lunches are either periods 9, 11, or 13.

- Second, identify your ELA class on your **Skyward** schedule. ELA classes are listed in three period sequences.
 - For instance, ELA maybe periods [1-2-3] or [3-4-5]

Now, use the Chart below to help you find your Model.

<u>Grade</u>	<u>Lunch Period</u>	<u>ELA Periods</u>	<u>Model</u>
